## INDICES

Volume 41 (2000)

## A thank you to the experts who support the Editorial Board

The editors wish to express their gratitude and appreciation to all those specialists in radiology, physics and other fields who have so greatly contributed to the process of reviewing the manuscripts for *Acta Radiologica.* We sincerely hope that this sometimes very difficult and time-consuming analysis of manuscripts has been of value in your own research and not only a burden.

# SUBJECT INDEX TO VOLUME 41 (2000)

### Nervous system (incl. skull)

MRA in patients with cerebrovascular disease. Considerations of clinical effectiveness . . . . . 1
Evaluation of dural sinus invasion and extension of extra-axial intracranial tumors. The advantages of a high-resolution postcontrast 3-D gradient-echo technique . . . . . 8
CT of the brain in tuberculous meningitis. A review of 289 patients . . . . . 13
Does diving damage the brain? MR control study of divers' central nervous system . . . . . 18
Abnormalities on brain MR images during the course of familial haemophagocytic lymphohistiocytosis in a child. A case report . . . . . 22
MR appearance of paraganglioma of the cauda equina. Case reports . . . . . 27
Endovascular coil embolization of residual or recurrent aneurysms after surgical clipping . . . . . 111
Neurologic complications of cerebral angiography. A retrospective study of complication rate and patient risk factors . . . . . 204
Enhancement pattern of normal extraocular muscles in dynamic contrast-enhanced MR imaging with fat suppression . . . . . 211
Intraosseous lipoma of the frontal bone. A case report 320
Cranial epidural tuberculoma. A case report . . . . . 367
Intracardiac tumour and brain lesions in tuberous sclerosis. A case report of antenatal diagnosis by ultrasonography . . . . . 371
Chiasmatic glioblastoma of childhood. A case report 375
Acute neuromedical and neurosurgical admissions. Standard and ultrafast MR imaging of the brain compared with cranial CT . . . . . 401
Persistence of both proatlantal arteries with occlusion of the internal carotid arteries. A case report . . . . 410
Diagnosis of meningeoma. A comparison of costs before CT, during CT and after introduction of MR imaging . . . . . 539
Experimental acute intracerebral hemorrhage. Value of MR sequences for a safe diagnosis at 1.5 and 0.5 T 544
Comparison of MR sequences in early cerebral infarction at 0.5 T . . . . . 553
Assessment of optic nerve compression in Graves' ophthalmopathy. The usefulness of a quick T1-weighted sequence . . . . . 559
Dynamic MR imaging of neurohypophyseal germ cell tumors for differential diagnosis of infundibular diseases . . . . . 562
Proton MR spectroscopy of the brain in patients treated with TIPS . . . . . 567
Intramedullary tuberculomas. MR findings in seven patients . . . . . 572
Cerebrospinal fluid flow in the cervical spinal canal in patients with chronic neck pain . . . . . 578

### Ear, nose, throat and eye

Dynamic MR imaging of mandibular osteoradionecrosis . . . . . 31
Early glottic squamous cell carcinoma. Predictive value of MR imaging for the rate of 5-year local control with radiation therapy . . . . . 38
Doppler ultrasonography in predicting relapse of hyperthyroidism in Graves' disease . . . . . 45
CT findings in tuberculous otomastoiditis. A case report . . . . . 49
Intraosseous lipoma of the frontal bone. A case report 320
Differentiated thyroid carcinoma. Prediction of tumor invasion with MR imaging . . . . . 377
Contrast-enhanced color Doppler ultrasonography in suspected parathyroid lesions . . . . . 412
Imaging features of myoepithelioma arising from the hard palate. A case report . . . . . 417
Radiological findings in angiofibroma. Review article 585

### Bones, joints and soft tissues

Infrapopliteal percutaneous transluminal angioplasty for limb salvage . . . . . 73
High-resolution MR imaging of the carpal tunnel and the wrist. Application of a 5-cm surface coil . . . . . 78
High-resolution MR imaging of the knee at 3 T . . . . 84
MR findings of desmoplastic fibroma of the spine. A case report . . . . . 89
Evaluation of new sclerotic bone metastases in breast cancer patients during treatment . . . . . 178
Quantitative bone scintigraphy. A methodological evaluation in prostate cancer . . . . . 183
US versus conventional radiography in the diagnosis of sternal fractures . . . . . 296
MR imaging after sports-induced hip dislocations. Report of three cases . . . . . 300
Radiological changes of the symphysis in ankylosing spondylitis . . . . . 307
Radiation dose and image information in computed radiography. A phantom study of angle measurements in the weight-bearing knee . . . . . 310
The pelvic digit – a rare developmental anomaly. A case report with CT correlation and review of the literature . . . . . 317
Fluor-18-fluorodeoxyglucose positron emission tomography (FDG-PET) in malignant melanoma. Diagnostic comparison with conventional imaging methods . . . . . 446
Differentiation of vascular birthmarks by MR imaging. An investigation of hemangiomas, venous and lymphatic malformations . . . . . 453
Analysis of patellar cartilage. Comparison of conventional MR imaging and MR and CT arthrography in cadavers . . . . . 492

Swedish metacarpophalangeal standards compared with previously published norms . . . . . 498
Radiographic evaluation of anterior dislocation of the shoulder . . . . . 658

### Breasts

Effect on sensitivity and specificity of mammography screening with or without comparison of old mammograms . . . . . 52
Pre-operative simultaneous stereotactic core biopsy and fine-needle aspiration biopsy in the diagnosis of invasive lobular breast carcinoma . . . . . 57
Primary tuberculosis of the breast. A case report . . . 61
Ultrasound demonstration of mammographically detected microcalcifications . . . . . 217
The potential influence of fine-needle aspiration on MR imaging of the breast . . . . . 222
Intracystic papillary carcinoma in the male breast. A case report . . . . . 227
Local breast cancer recurrence caused by mammographically guided punctures . . . . . 435
The role of scintimammography with $^{99m}$Tc-sestamibi as a complementary diagnostic technique in the detection of breast cancer . . . . . 441

### Cardiovascular system

High-resolution imaging of coronary calcifications by intense low-energy fluoroscopic X-ray obtained from synchrotron radiation . . . . . 64
A double coaxial delivery system for deployment of a two-stage stent-graft. An experimental feasibility study . . . . . 67
Infrapopliteal percutaneous transluminal angioplasty for limb salvage . . . . . 73
Effect of CT digital image compression on detection of coronary artery calcification . . . . . 116
Intravascular ultrasound angioplasty in peripheral arterial occlusion. Preliminary experience . . . . . 122
Imaging of aortoiliac arterial disease. Duplex ultrasound and MR angiography versus digital subtraction angiography . . . . . 125
Symptomatic peripheral vascular tree stenosis. Comparison of subtracted and nonsubtracted 3D contrast-enhanced MR angiography with fat suppression . . . . . 133
Improved peripheral MRA using multi-velocity-encoding phase contrast-enhanced MRA techniques . . . 139
Patient radiation exposure during coronary angiography and intervention . . . . . 142
Outcome after catheter-directed thrombolysis of occluded prosthetic femoropopliteal bypasses. A prospective study . . . . . 249
Non-invasive myocardial iron assessment in thalassaemic patients. T2 relaxometry and magnetization transfer ratio measurements . . . . . 348
Morphology and hemodynamics in dissection of the descending aorta. Assessment with MR imaging . . 594
Scoring of extensive deep leg vein thrombosis displayed as wide-spread non-filling of contrast on phlebography. A comparison with colour Doppler ultrasonography . . . . . 605
A new stent designed for carotid artery application. An experimental study . . . . . 601

### Mediastinum and respiratory system

CT scores of emphysema and oxygen desaturation during low-grade exercise in patients with emphysema 196
Pulmonary disease in liver transplant recipients. Spectrum of CT features . . . . . 230
High-resolution CT in renal transplant patients with suspected pulmonary infections . . . . . 237
CT lung densitometry in assessing intralobular air content. An experimental and clinical study . . . . . 242
Optimal tube current for lung cancer screening with low-dose spiral CT . . . . . 352
Hard-copy versus soft-copy with and without simple image manipulation for detection of pulmonary nodules and masses . . . . . 420
Symptomatic improvement in dyspnea following tracheobronchial metallic stenting for malignant airway obstruction . . . . . 425
CT features of mediastinal lymphangiohemangioma associated with superior vena cava ectasia. A case report . . . . . 429
Poland's syndrome with lung cancer. A case report . . 432
Functional MR imaging of pulmonary ventilation using hyperpolarized noble gases. Review article . . 519
Ultrasound-guided transthoracic co-axial biopsy of thoracic mass lesions . . . . . 529
Predictors of radiological sequelae of pulmonary tuberculosis . . . . . 533

### Digestive tract

Bread and barium. Diagnostic value in patients with suspected primary esophageal motility disorders . . 145
Esophageal rings and strictures. Manometric characteristics in patients with food impaction . . . . . 275
Barium sulfate as contrast medium for evaluation of postoperative anastomotic leaks . . . . . 482
Ultrasonography in acute appendicitis. Body mass index as selection factor for US examination . . . . 486
Ultrasonography and CT findings of a dermoid cyst of the cecum. A case report . . . . . 489
Added value of CEA scintigraphy in the detection of recurrence of rectal carcinoma . . . . . 629

### Liver, biliary tract

Dynamic MR imaging of liver metastases with Gd-EOB-DTPA . . . . . 255

Multishot echo-planar imaging with gadopentetate dimeglumine. Preliminary study of efficacy for detection of hypovascular metastatic liver tumors ..... 263
MR cholangiopancreaticography and endoscopic retrograde cholangiopancreaticography in patients with suspected common bile duct stones. A prospective blinded study ..... 269
MR cholangiography in massive hepatobiliary ascariasis. A case report ..... 273
MR imaging in clinically suspected acute cholecystitis. A comparison with ultrasonography ..... 322
Hepatic falciform artery. Angiographic findings in 25 patients ..... 329
Percutaneous management of occluded biliary duct endoprostheses ..... 338
High-dose percutaneous ethanol injection therapy of liver tumors. Patient acceptance and complications 458
Diagnostic accuracy of helical CT arterial portography and CT hepatic arteriography for hypervascular hepatocellular carcinoma in chronic liver damage. An ROC analysis ..... 464
Contrast-enhanced color Doppler US in malignant portal vein thrombosis ..... 470
Transjugular intrahepatic portosystemic shunt. Experiences at a liver transplantation center ..... 474
Miliary hepatic tuberculosis not associated with splenic or lung involvement. A case report ..... 479
Cholangiopathy in extrahepatic portal venous obstruction. Radiological appearances ..... 615
Pancreaticobiliary diseases. Comparison of 2D single-shot turbo spin-echo MR cholangiopancreatography with endoscopic retrograde cholangiopancreatography ..... 621
Influence of pre-examination starvation on liver uptake of the hepatocyte-specific contrast medium FP 736–04 at CT ..... 667

**Spleen, pancreas**

Localization of insulinomas. Comparison of conventional arterial stimulation with venous sampling (ASVS) and superselctive ASVS ..... 172
Pancreatoblastoma. Three original cases and review of the literature ..... 334
Intraductal papillary tumors of the pancreas. Histopathologic correlation of MR cholangiopancreatography findings ..... 343
US and CT findings in splenic focal lesions in AIDS 616
Pancreaticobiliary diseases. Comparison of 2D single-shot turbo spin-echo MR cholangiopancreatography with endoscopic retrograde cholangiopancreatography ..... 621
Schwachman-Diamond syndrome. A case report ... 627

**Abdomen**

Glycogen content in rat liver. Importance for CT and MR imaging ..... 92
Impact of intraoperative ultrasonography on surgical treatment of liver tumours ..... 97
CT and MR imaging of the liver. Clinical importance of nutritional status ..... 151
Ischemic complications of transcatheter arterial chemoembolization in liver malignancies ..... 156
Infantile hemangioendothelioma. A case report .... 161
Delayed presentation of trumatic left-sided diaphragmatic avulsion. A case report ..... 165
Factors influencing patient radiation doses from barium enema examinations ..... 167

**Urogenital system**

Quantitative bone scintigraphy. A methodological evaluation in prostate cancer ..... 183
CT in the evaluation of complicated autosomal dominant polycystic kidney disease ..... 280
From donor to recipient. Doppler US, power US and scintigraphy of kidney perfusion before and after transplantation ..... 285
Transrectal US and endorectal MR imaging in partial and complete obstruction of the seminal duct system. A comparative study ..... 288
Imaging end-stage kidney disease in adults. Low-field MR imaging with magnetization transfer vs. ultrasonography ..... 357
Detection and characterisation of renal lesions by multiphasic helical CT ..... 361
Non-invasive determination of metabolite concentrations in human transplanted kidney *in vivo* by $^{31}P$ MR spectroscopy ..... 634
Functional evaluation of hydronephrosis by diffusion-weighted MR imaging. Relationship between apparent diffusion coefficient and split glomerular filtration rate ..... 642
Staging uterine cervical carcinoma with low-field MR imaging ..... 647
Ultrasonographic evaluation of bilateral groins in children with unilateral inguinal hernia ..... 653
Reduced iopromide elimination in hemodialysis with cuprophan membranes ..... 671

**Pediatric radiology**

Abnormalities on brain MR images during the course of familial haemophagocytic lymphohistiocytosis in a child. A case report ..... 22
Infantile hemangioendothelioma. A case report .... 161
Activity-based costing in radiology. Application in a pediatric radiological unit ..... 189
MR cholangiography in massive hepatobiliary ascariasis. A case report ..... 273
Chiasmatic glioblastoma of childhood. A case report 375
Differentiation of vascular birthmarks by MR imaging. An investigation of hemangiomas, venous

and lymphatic malformations . . . . . 453
Swedish metacarpophalangeal standards compared with previously published norms . . . . . 498
Radiological findings in angiofibroma. Review article 585
Schwachman-Diamond syndrome. A case report . . . 627
Ultrasonographic evaluation of bilateral groins in children with unilateral inguinal hernia . . . . . 653

### Digital radiography

Imaging of aortoiliac arterial disease. Duplex ultrasound and MR angiography versus digital subtraction angiography . . . . . 125
Quantitative bone scintigraphy. A methodological evaluation in prostate cancer . . . . . 183
Radiation dose and image information in computed radiography. A phantom study of angle measurements in the weight-bearing knee . . . . . 310
Hard-copy versus soft-copy with and without simple image manipulation for detection of pulmonary nodules and masses . . . . . 420

### Ultrasonography

Doppler ultrasonography in predicting relapse of hyperthyroidism in Graves' disease . . . . . 45
Impact of intraoperative ultrasonography on surgical treatment of liver tumours . . . . . 97
Intravascular ultrasound angioplasty in peripheral arterial occlusion. Preliminary experience . . . . . 122
Imaging of aortoiliac arterial disease. Duplex ultrasound and MR angiography versus digital subtraction angiography . . . . . 125
Ultrasound demonstration of mammographically detected microcalcifications . . . . . 217
US versus conventional radiography in the diagnosis of sternal fractures . . . . . 296
Intracardiac tumour and brain lesions in tuberous sclerosis. A case report of antenatal diagnosis by ultrasonography . . . . . 371
Contrast-enhanced color Doppler ultrasonography in suspected parathyroid lesions . . . . . 412
Contrast-enhanced color Doppler US in malignant portal vein thrombosis . . . . . 470
Ultrasonography in acute appendicitis. Body mass index as selection factor for US examination . . . . 486
Ultrasonography and CT findings of a dermoid cyst of the cecum. A case report . . . . . 489
Ultrasound-guided transthoracic co-axial biopsy of thoracic mass lesions . . . . . 529
US and CT findings in splenic focal lesions in AIDS 616
Schwachman-Diamond syndrome. A case report . . . 627
Ultrasonographic evaluation of bilateral groins in children with unilateral inguinal hernia . . . . . 653

### CT

CT of the brain in tuberculous meningitis. A review of 289 patients . . . . . 13
CT findings in tuberculous otomastoiditis. A case report . . . . . 49
Glycogen content in rat liver. Importance for CT and MR imaging . . . . . 92
Structure and content of 400 CT reports in four teaching hospitals using a new, windows-based software tool . . . . . 102
Effect of CT digital image compression on detection of coronary artery calcification . . . . . 116
CT and MR imaging of the liver. Clinical importance of nutritional status . . . . . 151
CT scores of emphysema and oxygen desaturation during low-grade exercise in patients with emphysema 196
Pulmonary disease in liver transplant recipients. Spectrum of CT features . . . . . 230
High-resolution CT in renal transplant patients with suspected pulmonary infections . . . . . 237
CT lung densitometry in assessing intralobular air content. An experimental and clinical study . . . . . 242
From donor to recipeint. Doppler US, power US and scintigraphy of kidney perfusion before and after transplantation . . . . . 285
The pelvic digit – a rare developmental anomaly. A case report with CT correlation and review of the literature . . . . . 317
Intraosseous lipoma of the frontal bone. A case report 320
Hepatic falciform artery. Angiographic findings in 25 patients . . . . . 329
Optimal tube current for lung cancer screening with low-dose spiral CT . . . . . 352
Detection and characterisation of renal lesions by multiphasic helical CT . . . . . 361
Acute neuromedical and neurosurgical admissions. Standard and ultrafast MR imaging of the brain compared with cranial CT . . . . . 401
CT features of mediastinal lymphangiohemangioma associated with superior vena cava ectasia. A case report . . . . . 429
Diagnostic accuracy of helical CT arterial portography and CT hepatic arteriography for hypervascular hepatocellular carcinoma in chronic liver damage. An ROC analysis . . . . . 464
Ultrasonography and CT findings of a dermoid cyst of the cecum. A case report . . . . . 489
Analysis of patellar cartilage. Comparison of conventional MR imaging and MR and CT arthrography in cadavers . . . . . 492
Arterial enhancement at abdominal CT angiography. Low- versus high-osmolality contrast media . . . . . 508
Radiological findings in angiofibroma. Review article 585
US and CT findings in splenic focal lesions in AIDS 616
Schwachman-Diamond syndrome. A case report . . . 627

### MR imaging and spectroscopy

MRA in patients with cerebrovascular disease. Considerations of clinical effectiveness . . . . . 1
Evaluation of dural sinus invasion and extension of extra-axial intracranial tumors. The advantages of a high-resolution postcontrast 3-D gradient-echo technique . . . . . 8
Does diving damage the brain? MR control study of divers' central nervous system . . . . . 18
Abnormalities on brain MR images during the course of familial haemophagocytic lymphohistiocytosis in a child. A case report . . . . . 22
MR appearance of paraganglioma of the cauda equina. Case reports . . . . . 27
Dynamic MR imaging of mandibular osteoradionecrosis . . . . . 31
Early glottic squamous cell carcinoma. Predictive value of MR imaging for the rate of 5-year local control with radiation therapy . . . . . 38
High-resolution MR imaging of the carpal tunnel and the wrist. Application of a 5-cm surface coil . . . . . 78
High-resolution MR imaging of the knee at 3 T . . . . 84
MR findings of desmoplastic fibroma of the spine. A case report . . . . . 89
Glycogen content in rat liver. Importance for CT and MR imaging . . . . . 92
Imaging of aortoiliac arterial disease. Duplex ultrasound and MR angiography versus digital subtraction angiography . . . . . 125
Symptomatic peripheral vascular tree stenosis. Comparison of subtracted and nonsubtracted 3D contrast-enhanced MR angiography with fat suppression . . . . . 133
Improved peripheral MRA using multi-velocity-encoding phase contrast-enhanced MRA techniques . . . 139
CT and MR imaging of the liver. Clinical importance of nutritional status . . . . . 151
Evaluation of new sclerotic bone metastases in breast cancer patients during treatment . . . . . 178
Enhancement pattern of normal extraocular muscles in dynamic contrast-enhanced MR imaging with fat suppression . . . . . 211
The potential influence of fine-needle aspiration on MR imaging of the breast . . . . . 222
Dynamic MR imaging of liver metastases with Gd-EOB-DTPA . . . . . 255
Multishot echo-planar imaging with gadopentetate dimeglumine. Preliminary study of efficacy for detection of hypovascular metastatic liver tumors . . . . . 263
MR cholangiopancreaticography and endoscopic retrograde cholangiopancreaticography in patients with suspected common bile duct stones. A prospective blinded study . . . . . 269
MR cholangiography in massive hepatobiliary ascariasis. A case report . . . . . 273
Transrectal US and endorectal MR imaging in partial and complete obstruction of the seminal duct system. A comparative study . . . . . 288
MR imaging after sports-induced hip dislocations. Report of three cases . . . . . 300
MR imaging in clinically suspected acute cholecystitis. A comparison with ultrasonography . . . . . 322
Intraductal papillary tumors of the pancreas. Histopathologic correlation of MR cholangiopancreatography findings . . . . . 343
Non-invasive myocardial iron assessment in thalassaemic patients. T2 relaxometry and magnetization transfer ratio measurements . . . . . 348
Imaging end-stage kidney disease in adults. Low-field MR imaging with magnetization transfer vs. ultrasonography . . . . . 357
Chiasmatic glioblastoma of childhood. A case report 375
Differentiated thyroid carcinoma. Prediction of tumor invasion with MR imaging . . . . . 377
Gadobenate dimeglumine and cerebral glucose metabolism. Continuous monitoring of striatal lactate levels in freely moving rats . . . . . 394
Acute neuromedical and neurosurgical admissions. Standard and ultrafast MR imaging of the brain compared with cranial CT . . . . . 401
Persistence of both proatlantal arteries with occlusion of the internal carotid arteries. A case report . . . . 410
Imaging features of myoepithelioma arising from the hard palate. A case report . . . . . 417
Differentiation of vascular birthmarks by MR imaging. An investigation of hemangiomas, venous and lymphatic malformations . . . . . 453
Analysis of patellar cartilage. Comparison of conventional MR imaging and MR and CT arthrography in cadavers . . . . . 492
Functional MR imaging of pulmonary ventilation using hyperpolarized noble gases. Review article . . 519
Diagnosis of meningeoma. A comparison of costs before CT, during CT and after introduction of MR imaging . . . . . 539
Experimental acute intracerebral hemorrhage. Value of MR sequences for a safe diagnosis at 1.5 and 0.5 T 544
Comparison of MR sequences in early cerebral infarction at 0.5 T . . . . . 553
Assessment of optic nerve compression in Graves' ophthalmopathy. The usefulness of a quick T1-weighted sequence . . . . . 559
Dynamic MR imaging of neurohypophyseal germ cell tumors for differential diagnosis of infundibular diseases . . . . . 562
Proton MR spectroscopy of the brain in patients treated with TIPS . . . . . 567
Intramedullary tuberculomas. MR findings in seven patients . . . . . 572
Radiological findings in angiofibroma. Review article 585
Morphology and hemodynamics in dissection of the descending aorta. Assessment with MR imaging . . . . . 594

Pancreaticobiliary diseases. Comparison of 2D single-shot turbo spin-echo MR cholangiopancreatography with endoscopic retrograde cholangiopancreatography . . . . . 621
Non-invasive determination of metabolite concentrations in human transplanted kidney *in vivo* by $^{31}P$ MR spectroscopy . . . . . 634
Functional evaluation of hydronephrosis by diffusion-weighted MR imaging. Relationship between apparent diffusion coefficient and split glomerular filtration rate . . . . . 642
Staging uterine cervical carcinoma with low-field MR imaging . . . . . 647
Incidence of adverse events after i.v. injection of MR contrast agents in a Chinese population. A comparison between gadopentetate and gadodiamide . . . . 662
Symptomatic improvement in dyspnea following tracheobronchial metallic stenting for malignant airway obstruction . . . . . 425
Local breast cancer recurrence caused by mammographically guided punctures . . . . . 435,
High-dose percutaneous ethanol injection therapy of liver tumors. Patient acceptance and complications 458
Transjugular intrahepatic portosystemic shunt. Experiences at a liver transplantation center . . . . . 474
Ultrasound-guided transthoracic co-axial biopsy of thoracic mass lesions . . . . . 529
A new stent designed for carotid artery application. An experimental study . . . . . 601
Non-invasive determination of metabolite concentrations in human transplanted kidney *in vivo* by $^{31}P$ MR spectroscopy . . . . . 634

**Nuclear radiology**

From donor to recipient. Doppler US, power US and scintigraphy of kidney perfusion before and after transplantation . . . . . 285
The role of scintimammography with $^{99m}Tc$-sestamibi as a complementary diagnostic technique in the detection of breast cancer . . . . . 441
Fluor-18-fluorodeoxyglucose positron emission tomography (FDG-PET) in malignant melanoma. Diagnostic comparison with conventional imaging methods . . . . . 446
Added value of CEA scintigraphy in the detection of recurrence of rectal carcinoma . . . . . 629

**Interventional radiology**

Pre-operative simultaneous stereotactic core biopsy and fine-needle aspiration biopsy in the diagnosis of invasive lobular breast carcinoma . . . . . 57
A double coaxial delivery system for deployment of a two-stage stent-graft. An experimental feasibility study . . . . . 67
Infrapopliteal percutaneous transluminal angioplasty for limb salvage . . . . . 73
Endovascular coil embolization of residual or recurrent aneurysms after surgical clipping . . . . . 111
Intravascular ultrasound angioplasty in peripheral arterial occlusion. Preliminary experience . . . . . 122
Ischemic complications of transcatheter arterial chemoembolization in liver malignancies . . . . . 156
The potential influence of fine-needle aspiration on MR imaging of the breast . . . . . 222
Outcome after catheter-directed thrombolysis of occluded prosthetic femoropopliteal bypasses. A prospective study . . . . . 249
Percutaneous management of occluded biliary duct endoprostheses . . . . . 338

**Experimental radiology**

High-resolution imaging of coronary calcifications by intense low-energy fluoroscopic X-ray obtained from synchrotron radiation . . . . . 64

**Contrast media and other drugs**

Dynamic MR imaging of liver metastases with Gd-EOB-DTPA . . . . . 255
Multishot echo-planar imaging with gadopentetate dimeglumine. Preliminary study of efficacy for detection of hypovascular metastatic liver tumors . . . . . 263
Non-invasive myocardial iron assessment in thalassaemic patients. T2 relaxometry and magnetization transfer ratio measurements . . . . . 348
Iodixanol and iohexol in cardioangiography. A comparative vectorcardiographic study . . . . . 384
Seasonal variation in the occurrence of late adverse skin reactions to iodine-based contrast media . . . . 390
Contrast-enhanced color Doppler ultrasonography in suspected parathyroid lesions . . . . . 412
Barium sulfate as contrast medium for evaluation of postoperative anastomotic leaks . . . . . 482
Nephrotoxicity of high- and low-osmolar contrast media. The protective role of amlodipine in a rat model . . . . . 503
Arterial enhancement at abdominal CT angiography. Low- versus high-osmolality contrast media . . . . . 508
Functional MR imaging of pulmonary ventilation using hyperpolarized noble gases. Review article . . 519
Incidence of adverse events after i.v. injection of MR contrast agents in a Chinese population. A comparison between gadopentetate and gadodiamide . . . . 662
Influence of pre-examination starvation on liver uptake of the hepatocyte-specific contrast medium FP 736–04 at CT . . . . . 667
Reduced iopromide elimination in hemodialysis with cuprophan membranes . . . . . 671

### Physics and technique

Structure and content of 400 CT reports in four teaching hospitals using a new, windows-based software tool . . . . . 102
Analysis of the availability and completeness of previous radiological examinations related to plain films . . . . . 106
Effect of CT digital image compression on detection of coronary artery calcification . . . . . 116
Improved peripheral MRA using multi-velocity-encoding phase contrast-enhanced MRA techniques . . . 139
Patient radiation exposure during coronary angiography and intervention . . . . . 142
Factors influencing patient radiation doses from barium enema examinations . . . . . 167
Gadobenate dimeglumine and cerebral glucose metabolism. Continuous monitoring of striatal lactate levels in freely moving rats . . . . . 394
Hard-copy versus soft-copy with and without simple image manipulation for detection of pulmonary nodules and masses . . . . . 420

### Research and methodology

Activity-based costing in radiology. Application in a pediatric radiological unit . . . . . 189
Diagnosis of meningeoma. A comparison of costs before CT, during CT and after introduction of MR imaging . . . . . 539

### Miscellaneous

Poland's syndrome with lung cancer. A case report . . 432
